PROFILE SUMMARY

Third-year B.E. Computer Science student at P.A. College of Engineering, Mangalore, with a strong interest in Data Structures & Algorithms, software development, and problem-solving. Currently serving as the DSA Lead at CodeNexus, where I help foster a learning culture through coding activities and technical discussions. Continuously expanding my skills in C/C++, Python, web development, and core computer science concepts while building academic and personal projects. Passionate about learning new technologies, solving real-world problems, and growing as a software engineer.

WORK EXPERIENCE

CodeNexus • Mangaluru, Karnataka, India 12/2025 - Present
DSA Lead

- Lead Data Structures and Algorithms learning initiatives within the club.
- Mentor and guide students in solving coding problems and improving problem-solving skills.
- Organize DSA practice sessions, coding discussions, and technical events.
- Collaborate with the core team to plan and execute club activities.
- Curate coding resources, practice sheets, and problem sets to support structured learning.
- Encourage peer learning by facilitating doubt-solving sessions and fostering a collaborative coding environment.

PROJECTS 1.Expense Tracker Web Application (Python + Flask)

- Built a full-stack Expense Tracker website using Python and Flask where users can add and delete daily expenses.
- Added automatic calculation of total spending and category-wise expense summary.
- Created month and year filters so users can easily check past expenses.
- Designed a clean and responsive user interface that works well on both mobile and desktop.
- Successfully deployed the application on Render and handled real deployment issues.

2. AI-Powered Student Project Evaluator (Team Project)

- Developed a full-stack web application that uses AI to evaluate student projects and give scores with useful feedback.
- Allowed users to submit projects through text, files, or GitHub links.
- Created category-wise scoring for innovation, technical depth, clarity, and impact.
- Added secure login using Firebase and an interactive dashboard to view results.
- Used React.js, Node.js, Express, Tailwind CSS, Google Gemini API, and Firebase to build and deploy the complete system**.**

CORE COMPETENCIES

Technical Skills

Languages: C , Python,Java.
Databases: MongoDB, MySQL .
Tools & Platforms: Git, GitHub.
Other: Automation, Full- Stack Development, Responsive Web Design.

CERTIFICATIONS & COURSES

Introduction to HTML – SoloLearn (August 2025)
Introduction to CSS – SoloLearn (August 2025)
CodeNexus Season 1 Challenge – Certificate of Completion,
P.A. College of Engineering & CodeNexus PACE **Chakravyuha**
Youth Carnival – Participant,
Srinivas University (ASHVA, Department of MCA)

ACADEMIC QUALIFICATION

P A College of Engineering, Mangalore 01/2024 - Present
Bachelor of Engineering (B.E.) in Computer Science & Engineering
